PROFESSIONAL SUMMARY

Full Stack Developer & AI Agent Builder with a sharp focus on aligning technology with measurable business outcomes. Experienced in building scalable, production-ready systems — from web platforms generating 300+ customer inquiries to early-stage products achieving consistent daily traction. Currently building AI-powered agents and automation pipelines using LLMs to streamline workflows and reduce operational costs. Actively learning data engineering to bridge raw business data with actionable profitability insights. Known for leading cross-functional teams from ideation to deployment, with a strong emphasis on market validation, customer acquisition, and sustainable ROI.

TECHNICAL SKILLS

- **Front-end & Design:** HTML5, CSS3, JavaScript (ES6+), React.js, Vue.js, Tailwind CSS, Responsive Web Design, UI/UX Principles, Cross-browser Compatibility
- **Design Tools:** Figma, Adobe XD, Photoshop, Illustrator, Canva
- **Back-end & Programming:** Node.js, PHP, C, ASP.NET, RESTful API Integration
- **Databases:** PostgreSQL, MySQL, MongoDB
- **AI & Automation:** AI Agents, LLM Integration, Claude Agent SDK, Prompt Engineering, Multi-Agent Systems
- **Data Engineering (in progress):** Python, SQL Pipelines, ETL, Business Intelligence, Data-Driven Profitability Analysis
- **Tools & Workflow:** Git, GitHub, GitLab, Agile Methodologies, CI/CD Basics, Postman

EXPERIENCE

Lixnet Technologies

Sep 2025 — Present

Team Lead / Full Stack Developer

Nairobi, Kenya

- Promoted from Intern to Team Lead; now leading the development team as the company prepares to go public.
- Co-developed a full-featured Property Manager app using React, PHP, and MySQL.
- Conducted on-site field research with property managers and tenants to gather user requirements and validate usability.
- Implemented responsive UI components, integrated back-end APIs, and optimized data flows for tenant and unit management.

Agora

Jun 2025 — Present

Founder & Full Stack Developer

Nairobi, Kenya

- Founded and led Agora, a tech-driven initiative delivering scalable full stack solutions using React, Node.js, and MongoDB.
- Building AI-powered agents using LLMs and the Claude Agent SDK to automate business workflows, reduce operational overhead, and deliver intelligent, self-improving user experiences.
- Developed CareCraft, a platform linking barbers to customers — averaging 5 customers/day within its first 2 months of launch.

- Spearheaded product development from concept to deployment, integrating ML models for predictive analytics and intelligent UX.
- Managed cross-functional teams; oversaw UI/UX design, back-end architecture, and agile sprint planning.

Crisiz Web Development Services

Jan 2025 — Present

Contracted Full Stack Developer

Nairobi, Kenya

- Contracted to deliver multiple high-quality websites with modern, user-friendly designs.
- Integrated Zoho API, Daraja API, Pesapal, and Bulk-SMS systems into client platforms.
- Collaborated with clients to ensure seamless workflows and scalable solutions.

Debogen Consulting

Jan 2025 — May 2025

Frontend Developer

Nairobi, Kenya

- Designed, developed, and maintained responsive, user-centric websites using HTML, CSS, JavaScript, and React/Next.js.
- Developed the Debogen Groups website, generating over 300 customer inquiries within 10 months.
- Implemented SEO best practices; collaborated with designers, marketers, and back-end developers to enhance performance and UX.

EDUCATION

Riara University

Nairobi, Kenya

Bachelor of Science — Business and Information Technology

- Applied software engineering, data analysis, and business strategy to solve real-world organizational challenges.
- Developed full stack applications using HTML, CSS, JavaScript, React, Node.js, and MongoDB.
- Integrated machine learning into business solutions for predictive analytics and customer segmentation.
- Experienced in SEO, CRM systems, budgeting, and ERP platforms such as SAP and Oracle.
- Competed in multiple hackathons and startup challenges — including winning the Jagedo & Moringa Hackathon — demonstrating the ability to deliver innovative solutions under pressure.

CERTIFICATIONS

- **AWS Educate Badge** — [View on Credly](#)
- **Hewlett Packard Enterprise Job Simulation** — Enrolment Code: 2vzKBwC8WpirGDYPB | User Code: 6919e51cf6e23f7a00c9d6e2
- **ALX Software Engineering:** [AI Career Essentials](#) | [Professional Foundations](#) | [Front End Development](#) | [Back End Development](#)

ACHIEVEMENTS

- **Jagedo & Moringa Hackathon — 1st Place Winner:** Led a cross-functional team to build an ML-powered solution for the construction industry. Applied ML categorization to streamline material classification and site data analysis, improving operational efficiency and decision-making under tight deadlines.
- **Hackathon Competitor:** Regularly competes in hackathons to rapidly prototype ideas, stress-test technical depth, and engage with Kenya's broader tech ecosystem.
- **Portfolio:** Live project showcase at brownodoyo.vercel.app — featuring real-world applications and ongoing experiments in AI agents, full stack development, and data engineering.
